SUMMARY

Experienced Frontend Developer specializing in CRM, B2B platforms, and Admin Dashboards, leveraging modern JavaScript frameworks such as React.js and Next.js to build scalable, high-performance, and user-centric web applications. Proficient in state management with Redux Toolkit and UI frameworks like Material UI, Tailwind CSS, and Shadcn, ensuring responsive and visually appealing designs. Passionate about mobile development, creator of Togeth App, a React Native and Expo-based educational platform for learning English vocabulary, available on the App Store. This ad-free, interactive application enhances user engagement through dynamic UI and animations. Continuously staying up-to-date with emerging technologies, actively contributing to agile software development processes, focusing on performance optimization and cutting-edge UI/UX enhancements.

EDUCATION

AHMET YESEVI UNIVERSITY   Istanbul, TR
Computer Programming   August 2022 - June 2025
Curriculum : Software Engineering, Web Development, Algorithms, Artificial Intelligence

PROFESSIONAL EXPERIENCE

SETSIS INFORMATION TECHNOLOGIES   Istanbul, TR
Mid. Frontend Developer   February 2024 – Present
- Developed and optimized **B2B platforms, Admin Dashboards, and HR applications** using **React.js, TypeScript, Redux Toolkit, Shadcn, and Tailwind CSS**, improving UI efficiency and scalability. Led frontend development, ensuring high-performance, responsive designs, and seamless API integrations with **RESTful services**. Conducted **code reviews**, mentored junior developers, and contributed to agile workflows.

ALFA NOVA SOFTWARE   Istanbul, TR
Frontend Developer   August 2023 – February 2024
- Designed and developed **dashboard and CRM application**s using **React.js, Next.js, Material UI**, and **Redux Toolkit**, optimizing UI performance and enhancing user engagement. Improved page load speed through efficient state management and rendering techniques. Developed reusable UI components to reduce code redundancy and collaborated with UX teams to deliver a better user experience.

SOKAK SOFTWARE HOUSE   Istanbul, TR
Jr. Frontend Developer   May 2022 – August 2023
- Built and maintained **dashboard applications** using **React.js, Material UI, and SASS**, ensuring cross-browser compatibility and mobile responsiveness. Contributed to over **10 projects**, including WordPress-based web applications, focusing on **UI/UX improvements** and frontend optimization. Assisted in agile development processes, improving user accessibility and interaction across platforms.

DEVELOPED PROJECTS

TOGETH APP (MOBILE APP)   October 2024 - Present
Developed and launched a mobile application for English vocabulary learning using React Native, Expo, and various animation libraries for iOS and Android. Designed an interactive and user-friendly UI, ensuring a seamless learning experience. Published on the App Store, providing an ad-free and engaging platform for users.

PENTI B2B PLATFORM & ADMIN DASHBOARD   August 2024 - January 2025
Built a global B2B e-commerce and management platform for a retail brand, ensuring seamless order processing, customer management, and analytics tracking. Developed using React.js,TypeScript, Tailwind CSS, Shadcn, React Router DOM, and Redux Toolkit, optimizing speed and user experience.

LEECOOPER B2B PLATFORM & ADMIN DASHBOARD   August 2024 - December 2024
Developed a B2B e-commerce platform for managing customer transactions in Turkey. Built using React.js, Tailwind CSS, Flowbite, React Router DOM, and Redux Toolkit, enhancing UI responsiveness and operational efficiency. Integrated secure authentication and scalable data flow, streamlining business processes.

KECIOREN MUNICIPALITY INVENTORY APPLICATION   January 2025 - July 2025

Designed and developed an inventory tracking and asset assignment system for a municipality, ensuring efficient asset management. Built with React.js, Tailwind CSS, Shadcn, React Router DOM, Signal, and Redux Toolkit, improving data handling and system performance.

YARGICI TRANSFER TRACKING APPLICATION   February 2025 - May

Designed and built a project that enables Yargıcı stores to execute and route transfers between warehouses, ensuring performance and efficient data processing. Utilized React.js, TypeScript, Shadcn, and Redux Toolkit technologies.

FUODIX SOCIAL MEDIA PLATFORM   March 2024 - Present

Designed and developed a corporate social media platform with features including post sharing, interactions, event management, news, training modules, and exam tracking. Technologies: React.js, TypeScript, Tailwind CSS, Flowbite, React Router DOM, and Redux Toolkit.

FUODIX HR DASHBOARD   May 2024 - Present

Built a custom HR management platform for handling event scheduling, employee requests, training sessions, and exam evaluations. Developed using React.js, TypeScript, Tailwind CSS, Shadcn, and Redux Toolkit, ensuring a structured and intuitive HR workflow.

TRANSFERHUB 360 CRM   August 2023 - January 2024

Developed a CRM platform for transportation companies, featuring driver assignments, transfer scheduling, and reporting dashboards. Built with React.js, Material UI, SASS, React Router DOM, and Redux Toolkit, improving logistics and operational tracking.

PATIENTHUB360 CRM   August 2023 - January 2024

Created a medical CRM system for hospitals and clinics, incorporating patient management, doctor tracking, and appointment scheduling. Utilized React.js, Material UI, SASS, React Router DOM, and Redux Toolkit to enhance data accessibility and patient engagement.

ALGI AI DASHBOARD   May 2022 - August 2023

Developed a dashboard integrating AI-driven services, including facial recognition, license plate reading, and object detection. Technologies: React.js, Next.js, SASS, Material UI, Apex Charts, and Redux Toolkit. Optimized real-time data visualization and AI analytics.

SKILLS

Frontend Development: React.js, Next.js, React Native, TypeScript, JavaScript, HTML5, CSS3, SASS, Tailwind CSS, Bootstrap, Material UI, Shadcn, Flowbite
State Management & Data Handling: Redux Toolkit, React Query, Zustand, Context API, Rest API, RESTful API
UI/UX & Design: User Interface Design, Responsive Design, UI/UX, Animation Libraries, Component-Based Architecture
Performance & Optimization: Webpack, Babel, Code Splitting, Lazy Loading, SEO Optimization (Google SEO)
Testing & Quality Assurance: Jest, React Testing Library, Unit Testing
Project & Workflow Management: Agile, Scrum, Git, GitHub, CI/CD Pipelines
Backend & Databases: MongoDB, Firebase
Other Tools & Technologies: Expo, Signal, WebSockets

ADDITIONAL

Certificates:
- Front-end Development (Bilge Adam Academy) - **December 2022**
- React.js (Turkcell Future Writers) - **November 2022**
- English Certificate (B1 Level) - February **2024**

Languages: Turkish (Native), English (Intermediate - B1 Level)
